Jim Lund:

In regards, to your request for information regarding whether Nalco Company products contain Hexavalent Chromium, we provide the following information:

PP05-3416\*  
PP06-3244  
NALCO 7533  
NALKLEEN® 2626  
NALCON® 7648  
NALCO® PP10-3038  
NALCO® PP10-3340

\*Product PP05-3416 is deactivated since 12/01/09, please contact your local Nalco sales representative

Hexavalent Chromium is not an intended ingredient in these products. Since we do not specifically analyze for the presence of this substance, we cannot guarantee whether or not it may be present as an impurity at trace levels. We do not intentionally introduce this substance of concern during manufacturing and packaging events. To the best of our knowledge, the substance of concern is not known to be present in the supplied raw materials.

This information is provided in good faith and is believed accurate as of the date of this letter based on a review of current composition data and information supplied by the vendors. No warranty is expressed or implied. Liability is expressly disclaimed.

Please contact your local Nalco Sales Representative if you have additional questions regarding Nalco products.

Sincerely,

Corporate Quality and Product Registration - Regulatory Group
